## PRESCRIPTION DETAILS:

1. Date: April 12, 2025, Doctor: Dr. Pulmo Doctor

Patient Information: Name: Mr. Philip John Age: 42 Gender: Male Doctor Information: Name: Dr. Pulmo Doctor Hospital/Clinic: ZZZ Hospitals, Any City License Number: 99999 (Tami Nadu Medical Council REGD No) Qualifications: MBBS, M.D (Chest), Consultant Pulmonologist Medications: SALBAIR TRANSHALER INHALER (Levosalbutamol): 1 puff as needed (STAT) MOXCLAV 625 TABLET (Amoxicillin 500mg + Clavulanic Acid 125mg): 1 tablet, three times a day (1-1-0-1) for 5 days MAXITHRAL 500 TABLET (Azithromycin 500mg): 1 tablet once a day (1-0-0-0) for 3 days MONTEKLCTABLET (Montelukast 10mg + Levocetirizine 5mg): 1 tablet at night (0-0-0-1) for 5 days SOMPRAZ 20 TABLET (Esomeprazole 20mg): 1 tablet once a day (1-0-0-1) for 5 days Special Instructions: Diagnosis: Acute febrile illness - URTI (006.9) Partially Controlled Next Review Date: Monday, 23 April 2018, 05:30 PM Do not refill more than once. For appointments, call +91 98946 22998 Note: The prescription contains some difficult-to-decipher handwriting and abbreviations. I have made my best interpretation, but it is crucial that the patient confirm all details with the prescribing doctor or pharmacist, especially dosages and frequencies. The "STAT" instruction for Salbair likely means "as needed" in this context, but again, confirmation is vital.
